Honorora, April 19th, 1899. What is the plan of compaign in connec; tion with the rebellion in the Kowloon hinterland? Are we to be content with the establishment of a military camp at Tuipo and to leave all the country outside the range of the guns exposed to the ravages fof the enemy? If so the affir rony drag from Hongkong with plagmen board.

on for months, with much loss of prestige to the Government and much suffering on the part of the peaceably-disposed, inhabitants. There is no use blinking facts. There is a rebellion in progress - a contemptible little rebellion perhaps, but a rebellion nevertheless or should we call it m'in vasion? and the Government must so thesitate to take such measures as may be necessary for its suppréssion. The territory is now British, and further appeals to the Chinese authorities would be out of order, even if their futility had not already been so completely exposed. The British Government is responsible for the restoration and maintenance of order in British territory, and the responsibility is one that cannot be shirked. Has Goneral GASCOIONE, then, been given a free hand to clear the country, or is it a fact, as we have heard suggestett, that he is restrained by the civil Government? There seems some reason to suppose that the latter suggestion is not unfounded, otherwise the General would almost sertainly by this time have had another force out operating from the Usep Bay side, so as to shut in the enemy and compel his complete surrender or asphilation. To sit down at Taipoliu and wat for the efferty to disperse, or merely to clase him up and down the territory, giving him chances to dodge and double, would be a calamitous and disgraceful phlicy. General GASCOIGNE

should at once be entrused with definite

orders to clear the country and be allowed

to use an unhampered discretion in carry-

ing out the orders.

Yesterday a message was sent over from Taipobustating that it had been discovered that the shelling of the Asiatio Artillery on Monday was most effective, the projectiles laving dropped among the rebels and killed a great many of them. Five gans were also secured. There

Military Governor of the Philippines has been informed that his request was not authorized, and a hope was expressed that the order for the discontinuance of the typhoon warnings from Manila should be rescinded, as the meteorologieal information conveyed was highly appreciated by the Chamber of Commerce and nautical men of this port. Question No. 5 is not question as to fact and does not require my answer. With reference to questions 6, 7, 8, and 10 the Scoretury of State has withdrawn his approval of the necessary expenditure for the establishment of the school until the Colony has made such financial arrangements as to

funds must come from the Government. THE EXTENSION OF THE COLONY. The Acting Attorner-General-Liber to lay on the table " Extracts from papers relating to the extension of the colony of Hongkong." His Excellency-I think it would be as well to call attention to the fact that the pipers laid on the table are extracts from papers; for although they are headed " Extracts from Papers" it might be assumed that certain despatches were entire despatches. I with to be quite clear that they are not entire despatches, but only "extracts from papers." think it is only fair that the Council should know this, otherwise they might lafer. that they were the whole of the papers.

The ACTING ATTORNEY-GENERAL-in answer to that question I have only to say that this Bill is founded to a certain extent on the lines of the Ceylon Village Communities Bill, but in other respects it differs materially. That is to say, it has been found necessary to make considerable adaptations to the Bill in order to adapt the provisions to the circumstances which

exist in this colony. it shall appear that the case under trial is, from The Acting Attorney-General, in proposing the second reading of the Bill, said-I pro- its nature or magnitude, beyond the jurisdicpose to take hou, members shortly through the tion of such court, the president shall forthwith the new territory. In what way will taxes be provisions of this Bill in order that they may be able to follow out the scheme which is included in the Bill. Of course clause one of the Bill is purely formal. Togograble members will see, therefore, that the only persons to whom the term nutives is to apply are persons whose fathers are of the Chinese race. Part two of the Bill, section three, gives the Covernor power to constitute districts and sub-districts in the new territory -that is to say, it gives him power to divide the new territory or any part of it into mituble districts or sub-districts. Honourable members will further observe that by sub-section two of trate within fifteen days from the date of each section three the Governor has power at any time to exempt from the operation of the Ordin- the magistrate may allow), of his intention to ance any district or sub-district which has previously been brought within the provisions of the Ordinance. It seems to me that that is a very neeful power indeed and a very necessary power, because it may of course turnout on further experience to be a mistake to confer certain powers on the inhabitants of a particular distriot or sub-district. With regard to part three of the Bill-sections four, five, and six-section nor to appoint from time to time for each subdistrict such persons as he may think fit to also to appoint for each district such members of the sub-district committees or such other or aggrieved by the act or omission in respect for such district." THE NEW FRENCH REMEDY

This successful and highly popular remedy, as employed in the Continental Hospitals by Ricord. Rostan, Johert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto employed.

THERAPION No. 1, in a few days only, removes

In dysentery, piles, irritation of the lower bowel; cough, brouchitis, asthma, and some of the more trying complaints of this kind, it will be found astonishingly edicadous, affording prompt relief where other well-tried remedies have

heen powerless. THERAPION No. 2, for impurity of the blood scurry, primples, spots, blotches, pains, and swellings 27001 of the joints, secondary symptoms, disease of the bonce sore throat, and all diseases for which it has been too much a fashion to employ mercury, sarsaparille, &c., to the destruction of the sufferer's teeth and rule of health. This preparation purifies the whole system through the blood, and thoroughly eliminates every poisonous matter from the body. THERAPION, No. 3, for nervous exhaustion waste of vitality, and all the distressing consequence arising from early error, excess, residence in hots
